## About Us:

iDG10 is at the forefront of innovative technology solutions, developing cutting-edge proprietary software platforms that drive efficiency and performance of Energy industries. We are seeking passionate and talented individuals to join our team as Software Development Interns, contributing to the enhancement and expansion of our software solutions.

## Position Overview:

We are looking for motivated Software Development Intern (individual or a team of 2 students) to join our team for a 3-month internship. This is a unique opportunity to gain hands-on experience working on iDG10's proprietary software platform, utilizing your skills in JavaScript and Python to develop, test, and deploy *subsea O&G project management* software solutions that make a real impact.

## Key Responsibilities:

- Collaborate with the development team to design, implement, and test new features and functionalities on our proprietary software platform.
- Write clean, maintainable, and efficient code in JavaScript and Python.
- Assist in debugging and resolving software defects and issues.
- Participate in code reviews and contribute to continuous improvement practices.
- Work closely with other team members to ensure successful project delivery.

## Requirements:

- Currently pursuing a degree in Computer Science (5<sup>th</sup> semester onwards), Software Engineering, or a related field.
- Proficiency in JavaScript and Python programming languages.
- Organised and methodical approach towards the task given to you
- Self-motivated to complete the task as per schedule
- Problem-solver and able to work with minimum supervision
- Ability to communicate challenges and delays to the Product Manager

## Selection Process:

Stage 1: Shortlist based on resume and past projects (please share GitHub link or a video)

Stage 2: Stage 1 shortlisted candidates will be interviewed

**Job Type:** Project-based

---

**Remuneration:** ₹25,000 (to be paid across milestones of delivery)

**Application submission deadline:** 21<sup>st</sup> July 2024
